### MAP TALKS GRAPHIO 3

Designed by Chris Connell in 2016, Graphio 3 is a contemporary display case suitable for both residential and commercial interiors. Punctuated by different sized steel frames with a durable polyester coating, the lead configuration intersects in surprising and unconventional ways. Graphio 3 is available in black or terra colour ways, finished with self-leveling brass feet.

Available through Map International, visit [map.furniture](http://map.furniture)

### OMIVVO TALKS VENICE

Elegant modern asymmetry combines with sculptural form to create a modern classic in Omivvo's recently launched Venice collection.

The combination of timber with the smooth, flowing lines of a round or oval solid surface matt white basin, offers modern finishes with an organic feel, whilst the sleek minimal styling promises elegance and a sense of calm.

Designed and made in Australia, this sense is enhanced by the clean lines of the complementary range of Venice furniture in contemporary finishes which includes wall mounted drawers, floating benches and box frame mirrors.

Available through Omivvo, visit [omivvo.com](http://omivvo.com)

### SCHIVELLO TALKS SCATTER PLATTER

An appealing accessory for sofas and seating in a variety of environments, Scatter Platter comfortably suits the Bomba sofa, Kayt Village Collection and Kush. Made of a luxurious leather and down cushion insert, the pillow provides maximum comfort in three shapes: lumbar, circle and square. A piped flat edge or boxed edge detail, combined with an invisible zipper, makes for a clean, minimal aesthetic. Scatter Platter is available in a wide range of fabric, leather and vinyl options.

Available through Schivello, visit [schivello.com/scatter-platter](http://schivello.com/scatter-platter)

### BOMBA TABLES

Bomba Tables harmoniously integrate with the Bomba sofa system. An elegant family of occasional tables, these serve to independently complement a range of seating scenarios. Designed by Ivan Woods, the round, square or rectangular low floating tops sit upon distinctive tapered legs in timber or aluminium to create soft, contemporary profiles. Suing various personalities, tops are available in paint, veneer and stains in solid American oak, while aluminium legs can be polished or powder coated.
