

Motif

Omvivo launches Motif, a subtle way to introduce pattern into your bathroom with striking hand-etched designs

Omvivo are renowned for creating bathroom products which are at the forefront of interior styling trends. Their latest release Motif is no exception, offering unique artistic detail, which transcends the basin itself by creating beautiful shadowed patterns on the surrounding bench top.

Born from experiments with material, pattern and light, Motif is created from a combination of solid surface and glass. The materials fuse with the distinct deep etching by a glass artisan, elevating the product to a hand crafted, functional art piece.

Made in Australia, each Motif basin begins with the piece of beautiful hand-etched glass. The glass is formed in a kiln creating fall to the waste, then fitted with the solid surface surround. Supplied with a polished chrome pop up plug and matching spacer, the basin floats above the bench top accentuating the pattern and creating stunning reflections on the vanity.

Each of the three patterns are aesthetically significant, giving scope for adaptability. Motif can initiate the approach to a bathroom design or enhance the style of an existing bathroom.

"I was inspired by the idea of polyculturalism, and how multiple symbols can enhance the significance as well as the appearance of a product, whilst maintaining a common foundation."

Thomas Coward – Omvivo Principal Designer

Motif Materials and Finishes: Solid surface and hand etched glass, available in three patterns, Pebble, Forest and Kaleidoscope.

Motif furniture materials: Painted timber with hand turned legs and solid Surface shelf.

Designer: Thomas Coward

Motif was officially launched in July 2011 as part of the Omvivo collection and is available through Omvivo distributors globally.
