

## Venice

**Elegant modern symmetry combines with sculptural form to create a modern classic in Omvivo's recently launched Venice collection.**

Contemporary luxury achieved through considered design is Omvivo's hallmark, and the new Venice range lives up to expectations. The combination of timber and matt white solid surface offers modern finishes with an organic feel, whilst the sleek minimal styling promises elegance and a sense of calm.

Solid surface, smooth flowing lines in the round or oval matt white basin, inspire comparisons to classical sculpture. This sense is enhanced by the sleek lines of the complimentary range of Venice furniture in contemporary finishes.

Designed and made in Australia, the Venice furniture consists of wall mounted drawers with push to open mechanisms and divider inserts as well as clean wall mounted floating benches and box frame mirrors.

*'The Omvivo design team has created a sculptural and luxurious range in Venice, ideal for the premium residential market as well as exclusive hotel and hospitality environments. The matt white surface of the basin offers a stunning juxtaposition with the warm timber joinery. Perfectly proportioned and with beautiful detailing, Venice is the ultimate elegant statement for the classic contemporary bathroom'*

**Suzie Dyson - General Manager**
