

**LINEA WASHPLANE<sup>®</sup>**

**Clean lines + Corian = Linea**

**Media release June 2009**

The Omvivo Washplane<sup>®</sup> is the definitive luxury bathroom fixture. The latest addition, the Linea Washplane<sup>®</sup> in Corian<sup>®</sup> adds another dimension to the collection.

Evading the sharp, heavy structure of many existing bathroom designs, the unique Linea Washplane<sup>®</sup> opts for a softer more refined approach which provides design flexibility without compromising style. The clean lines and gentle form have a contemporary feel while maintaining an elegant aesthetic, appealing to both designers and the discerning retail market.

The unique Washplane<sup>®</sup> is ideal for residential and commercial bathrooms and is a particularly popular addition to feature bathrooms such as Powder rooms and Ensuites.

Slim, elegant and sculptural, the iconic Washplane<sup>®</sup> was designed to be used with the 5\* WELS rated Omvivo Ulisse outlet. When partnered with a water saving spout such as the Ulisse outlet, the Washplane<sup>®</sup> uses much less water than a conventional basin, and offers a continuous flow of clean water rather than the traditional bowl of soiled water.

The Omvivo Washplane<sup>®</sup> has been selected for exclusive projects such as The Sydney Opera House, Bedarra Island Resort, Burswood Casino and Eureka Tower, along with numerous prestige private residences including penthouses in Vue Grande, Royal Domain Tower and Balancea.

**Collection:** Linea Washplane available in single, double and triple lengths. Custom sizes also available.

**Linea materials:** Corian<sup>®</sup> is the original solid surface material, offering a smooth and consistent finish partnered with extreme durability. Corian<sup>®</sup> is a popular material choice for both residential and commercial areas, it is non porous, repairable and basically maintenance free.

**Finish:** Cameo white and Glacier white are the standard Corian<sup>®</sup> finishes for the Linea Washplane. Custom finishes can also be arranged.

**Manufacture:** The Linea Washplane<sup>®</sup> is proudly made in Australia for Omvivo.
