

Neo

The Neo Collection from Omvivo combines function with contemporary uncomplicated design, perfect for the modern bathroom.

Renowned for challenging and exclusive design, Omvivo's approach to Neo was from a far more conventional perspective. The intention was to create a bathroom range with uncomplicated and effortless style, with the needs and desires of today's lifestyle strongly influencing the design. The result is a bathroom collection of sophisticated yet reserved form that perfectly represents the modern environment.

With five basins and a diverse array of configurations to select from, Neo is ideal as a statement piece, or simply an attractive and practical choice for the bathroom. The flexible Neo basins cater for small powder rooms through to large family bathrooms.

While the basins can be wall mounted on their own, the superior and practical corresponding furniture completes the range for those who require storage. Available in a range of finishes, the deep soft-close drawers are partnered with internal adjustable shelves allowing great flexibility and convenience.

The Neo basins are created from pure acrylic solid surface, a stylish and durable finish that allows the clean sharp modern form highly sort after in contemporary environments. The perfect proportions accentuate the simple round bowl and the overall sharpness of the geometric basin. The velvety matt surface is non porous, repairable and very easy to clean, making Neo the ideal choice for both residential and commercial bathrooms.

"Influenced by the diversity of today's bathroom environments, we created Neo in a variety of sizes, configurations and of a sophisticated yet uncomplicated design. Neo suits a vast array of styles and spaces, from apartment living to large family homes, as well as a range of budgets. The timeless yet contemporary design is perfect for the modern bathroom and we believe Omvivo clients will appreciate the chic simplicity."

Peter Gaw– Manager Omvivo

Neo was officially launched September 2010. In Australia Neo is available exclusively through Reece Plumbing Showrooms, and internationally through Omvivo's distribution partners. Please contact Omvivo for further details.

Neo basin materials: Solid surface in White.

Neo furniture materials: Available in White, Mocha and Chambery high quality thermofoil.

Designer: Thomas Coward, principal designer at Omvivo.

Since moving to Australia in 2004 from the UK, Coward has been recognised as one of Australia's top 50 emerging designers. His *Parli-me* chair was selected as one of only 16 exhibitors for the City of Milan's young foreign designers showcase and more recently, Coward's 'Dune' basin has won the idea 08 Product Fixtures and Fittings award in Australia. Dune along with Coward's Latis bath have both won the Paris based Design and Design – 'Product design of the day' award and Coward's designs have been published in the Design and Design year book.
