Cleaning

Solid surface:

Spills should be cleaned up promptly. Clean with a mild detergent or soapy water and soft cloth. For more stubborn marks use a diluted very mild **non-coloured** abrasive cleaner with a soft cloth in light circular motions over the entire surface. Finish by cleaning off detergents with a soft wet cloth and towel dry. **Avoid using bleach, highly acidic products and coloured abrasive cleaners on your basin.**

Timber:

Wipe down with a damp cloth, using a mild detergent to keep dust and static attraction to a minimum. Stubborn stains generally cannot be removed. Light stains and marks can be removed with a mixture of half mentholated spirits half water, then wipe dry with a clean soft cloth.
