Waste Size: 32mm

Waste Supplied: Yes, with a 40mm pvc micro trap

Cleaning

Solid surface:

Spills should be cleaned up promptly. Clean with a mild detergent or soapy water and soft cloth. For more stubborn marks use a diluted very mild non coloured abrasive cleaner with a soft cloth in light circular motions over the entire surface. Finish by cleaning off detergents with a soft wet cloth and towel dry.

Avoid using bleach, highly acidic products and coloured abrasive cleaners on your basin.

Powder coat and laminate:

Never allow water or liquids to sit on your timber cabinetry. Always clean spills and water immediately. Clean with a mild, non-acidic, non-abrasive cleaner and soft cloth. Finish by cleaning off detergents with a soft damp cloth and towel dry. Avoid using bleach, highly acidic products and coloured abrasive cleaners on your vanity.
