

CDesign

March 2017

Omvivo expands its collaboration with Carr Design Group to introduce three new and exciting basins as part of the CDesign collection.

Omvivo welcomes three new additions to the CDesign collection, created in partnership with leading design firm Carr Design Group, with the intention to produce a distinct, contemporary and functional range of bathroom products.

With a diverse array of bathroom environments in mind, Carr designed a complete suite of products that represent a rigorously simple geometric form. Uncomplicated aesthetics, flexible design and Carr's signature understated detailing, have fused to create a collection that suits a diverse range of residential and commercial projects as well as budgets.

The CDesign collection consists of highly adaptable pieces including basins which can be wall or bench mounted with corresponding furniture.

CDesign will be officially launched in March 2017 as part of the Omvivo Signature Collection and will be available through Omvivo distributors globally.

"We are so excited to extend the CDesign range and present the market with additional options allowing even more flexibility and functionality to suit a greater range of spaces."

The modern, simple aesthetic of CDesign is a good fit with Omvivo and will be a welcome addition to the collection."

Suzie Dyson – General Manager Omvivo

CDesign product range:

CDesign micro 485 - small and compact perfect for powder rooms

CDesign 1330 double & 1620 double - functional double bowls, suitable for larger bathrooms

CDesign basin materials & finishes: Solid surface white with optional Softskin colours

CDesign furniture materials: High performance powder coat in white

Designer: Carr Design Group is a multi skilled firm of architects and Interior Designers. Long recognised for a contemporary aesthetic and sharp focus on detail, today Carr is one of the most respected design firms in Australia.

"The basis of the company's design philosophy is the interaction between appropriate responses to brief, site, community and environment. Our central concern is to constantly excel in quality, reputation and performance, always maintaining unique and timeless style, no matter what the size or scale of the project."

The quest for simplicity in detail has had a significant influence in framing my approach to this range and interior and product design in general. Conceiving the collection my focus was to design useful objects representing uncomplicated, timeless form."

Sue Carr – Director Carr Design Group
