

Latis Oval Bath

February 2017

Introducing the sculptural and elegant edition to the luxurious Latis collection from Omvivo

Latis oval bath, the latest bathroom creation in the Latis collection, is inspired by the fundamentals of tradition and quality. Uncomplicated, elegant forms create a luxurious contemporary range with eternal appeal.

Latis is a complete suite of luxury pieces that combine beautiful yet simple aesthetics with flexible design, suitable for a varied range of bathroom environments. The Latis oval bath offers an opulent and sculptural piece for the bathroom that is inspired by the soft curvaceous lines of the round and rectangular Latis basins. Luxurious yet functional the Latis oval bath will enhance both contemporary and traditional spaces, delivering stunning design and necessary purpose.

Named after the Celtic Goddess of Water, the Latis range consists of a round and rectangular basin, the trestle vanity and a beautiful 1600 bath. The Latis oval bath adds another element to this already sophisticated collection.

Latis oval bath will be officially launched February 2017 as part of the Omvivo Signature Collection and will be available through Omvivo distributors globally.

Latis oval bath materials: Solid surface white

Latis basin materials: Solid surface white with optional Softskin colours.

Latis trestle table materials: American Oak with matching timber and solid surface shelf options.

Custom Design: In addition to the Signature Collection, Omvivo are able to offer clients a unique customisation service available with the majority of the existing product range. This extends to a complete product design and manufacture service for large projects, offering clients a unique and exclusive service.
